

# Wildlife Program

The goal of the Long Beach Animal Hospital's wildlife program is to provide care for the injured wildlife in our community. This care is furnished as a voluntary program provided by our staff and doctors. We would be happy to better acquaint you with our services. Anyone is welcome to bring us a wild animal during our regular office hours. Our only requirement is that the animal is obviously injured. Due to the number of animals we receive and the fact that we volunteer our resources we are unable to give updates on a wild animal's disposition.

Please feel free to tell your friends and neighbors about our program of helping the injured wildlife in our community. Donations are always welcome to aid us in this worthwhile effort.

*Please provide us with the following information:*

Your Name: \_\_\_\_\_ Date: \_\_\_\_\_

Your address: \_\_\_\_\_

What type of animal did you bring in? \_\_\_\_\_

In what way is it injured? \_\_\_\_\_

Where did you find it (city & cross streets)? \_\_\_\_\_

How long have you had it? \_\_\_\_\_

What have you done for it? \_\_\_\_\_

Donation: \_\_\_\_\_
