DAY 2 • FRIDAY, FEBRUARY 15
ARRIVE ARUSHA, TANZANIA
Upon arrival at Kilimanjaro International Airport near Arusha, Tanzania, you will be met by our representative and transferred to your hotel for the evening. A truly “Out Of Africa” experience, the Arusha Coffee Lodge lies cradled in the endless acres of Tanzania’s largest coffee plantation. This exclusive, boutique hotel lodge has been designed around the farms’ original plantation homes, radiating the warmth and invitation of the old colonial plantation homes. Luxurious accommodation, WIFI, fine cuisine and roaring fires, beckon the most seasoned traveler. Your accommodation is ARUSHA COFFEE LODGE. (meals inflight)

DAYS 3-8 • SATURDAY-THURSDAY, FEBRUARY 16-21
ARUSHA / SERENGETI PLAINS
Following breakfast and an orientation, you transfer to the airport to board a 1 hour 15 minute flight directly into the Serengeti Plains, home to the greatest concentration of large, migratory mammals on Earth. Serengeti means “endless plains” in the Maasai language, and this sanctuary of 5,700 square miles evokes a sense of freedom. Millions of animals and birds thrive here, and you will be in the middle of all of it. In addition to the calving wildebeests, you will see abundant zebra, gazelle, topi, impala and hartebeest along with predators such as lion, leopard, cheetah, hyena and wild dog. Along the network of rivers and lakes, you may find hippos and crocodiles.

You spend the next six nights under canvas at our mobile tented camp. This exclusive private campsite features large, cabin-style walk-in tents with flush toilets and hot-water showers. There will be a community dining area with delicious food accommodating a wide variety of tastes and needs. Before dinner we will have drinks and appetizers around the campfire. You will fall asleep to the sounds of lions and hyenas as they proclaim their territories and do their nightly dance. Your accommodation is SERENGETI MOBILE TENT CAMP. (B,L,D Daily)

This trip is for anyone with a sense of adventure, who wants to see some of our planet’s more unique (and vanishing) wildlife and culture, and wants to do it in style. If you are interested in digital photography then you are in for even more of a treat. Dr. Palazzolo (or Dr. P., as he is known) combines his knowledge of photography and exotic animal veterinary medicine with the expert knowledge of our naturalist guides for a perfect combination of wildlife viewing and outstanding photography.

This trip has been specifically designed to coincide with the annual birth of wildebeest calves as part of the annual migration. Hundreds of thousands of wildebeests will be calving in a two-week period of time. It is an explosion of new life and interaction with the predators of the Serengeti, and we will be right in the middle of the action every day. This will be a unique safari, far more interesting and personal with nature than your average safari. You will return with an experience and photos that very few people will have experienced.

On Dr. P’s trips you can learn about digital photography at any level you want from beginning up to advanced. He will bring the finest professional equipment Canon makes, and will give everyone periodic access to these cameras and lenses with hands-on instructions. There will be a maximum of three to four people per vehicle allowing photographers ample room in the vehicle to get the best vantage point. Non-photographers are welcome, and will enjoy the trip just the same, although be forewarned how enticing it is to take your own photos to show off to your friends on your return.
